TRANSMISSION SYSTEMS

ENGINE SYSTEMS

CHASSIS SYSTEMS

Intelligent & Professional Repair Solution

- Under the three brands LuK, INA and FAG we offer clutch and release systems, engine and transmission applications, as well as chassis applications.
- Comprehensive portfolio in original-equipment (OE) quality.
- All components are tuned to work together perfectly for a simple, quick and professional repair.

FAG - The Chassis Specialist: Leading in quality, repair solution and future technology

SCHAEFFLER

Strong FAG Brand:

FAG is a well known and respected brand with a rich history of over 120 years in chassis system expertise and as a wheel bearing manufacturer. Technical innovations like Active Roll Stabilizer and Ride Height Adjustment underline Schaeffler's commitment to future chassis developments.

Complete repair solutions:

FAG repair solutions are tailored towards today's garage requirements when it comes to safe and efficient repairs. They contain all necessary parts to carry out professional repairs including all required accessories with market leading quality throughout the entire range.

Comprehensive quality promise:

FAG offers constant high quality components throughout the entire range by using durability and performance enhancing coating and sealing technologies like zinc flake coating and TPU boot material. Every single part is designed and tested according to Schaeffler quality standards.

Relevant range:

FAG developed a customer oriented range of chassis components and intelligent repair solutions for the most relevant applications of the European car park.

Steering & Suspension

Shock Absorbers

Wheel bearings & Modules

FAG Shock Absorber :

Built for performance and durability

SCHAEFFLER

Thrust bearing:

Designed for Low starting torque to ensure smooth steering and high load carrying capacity for long life

Piston Rod:

Produced through world class **Dyno Chrome Technology** for uniform thickness and for smooth operation for long life

Outer Tube:

High-tech surface coating, less corrosion and long durability

Banded pistons:

Multi-tuning valving technology supports for consistent damping force and different damping forces at different velocity

Nuts and bolts:

SAE Standard grade

Bump stop:

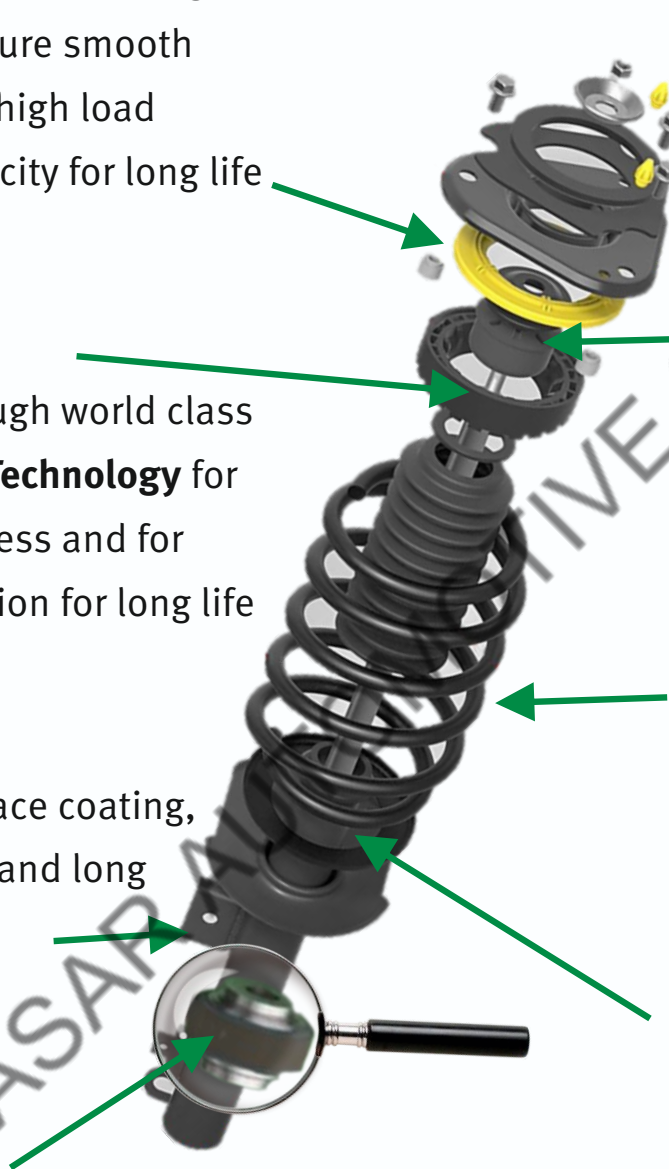

Protect vehicle from road impact and prevents other components impact damages for smoother driving

Coil spring:

High quality resilience spring for smooth and long lasting performance

Coil Spring isolator:

Protect metal to metal contact and reduce noise level
